BOARD OF ALDERMEN

MET MONDAY NIGHT

American Thread Co. Offers Park for Recreation Purposes—Y. M. C. A. Petitions for Special Water Rate.

The monthly meeting of the board of aldermen was held in the council chamber at the town building Monday evening, the full board being present. The meeting was called to order by Mayor D. P. Dunn and minutes of last meeting were read by City Clerk A. C. Scribner.

A number of citizens were present and their petitions were heard before the board was taken up. The first was a communication from the American Thread company. The communication was as follows: To the Honorable Board of Aldermen of the City of Willimantic: In response to repeated expressions of sentiment by many of the people of Willimantic, the American Thread company has been authorized to offer a park for the use of the city for the purpose of recreation as provided for by Chapter 119 of the Acts of 1913. We suggest the matter of the lease (rent free) of the city to the company, and we advise that only in this way can the park be legally used on Sunday afternoons, for the purposes referred to.

We will lease the park to the city, rent free, for each Sunday afternoon from now until Dec. 1, 1916, to be used for the purpose of recreation as provided for by Chapter 119 of the Acts of 1913. We suggest the matter of the lease (rent free) of the city to the company, and we advise that only in this way can the park be legally used on Sunday afternoons, for the purposes referred to. The company is a public park that is under the control of the city. In the event that such committee is appointed we will be glad to cooperate with it.

THE AMERICAN THREAD COMPANY EXECUTIVE COMMITTEE.

Per Geo. W. Decker, Secretary.
Ex-Attorney General William A. King, who appeared to explain the attitude of the company, said that it was a public park that is under the control of the city. In the event that such committee is appointed we will be glad to cooperate with it.

The park to be of the greatest possible use and enjoyment, not only to its employees, but to all the people of the community. As you know, however, the law (Chapter 119 of the Acts of 1913) does not permit baseball and similar sports to be engaged in on Sunday afternoons. The company is a public park that is under the control of the city. In the event that such committee is appointed we will be glad to cooperate with it.

"If for any reason the city does not accept the offer, I am confident the company will be glad to cooperate with you in any feasible way that you may suggest by which the grounds may be used on Sunday afternoons, and at the same time, the law be fully complied with."
In motion it was voted that a committee consisting of Mayor and Common Council to confer with American Thread Co. to see if there is any legal way petition can be granted.
Mr. A. J. O'Brien called attention to existing grade in High street between Prospect street and Summit street. He said a mistake had been made in curb line when it was made in lines. City was in no way responsible for condition of house at present.
S. B. Doolittle, representing the Y. M. C. A., appeared before the council and petitioned for a special water rate owing to the large amount of water which would be used in connection with the new swimming pool which is being installed. Attorney General George B. Hinman said he was particularly interested in the swimming pool. Said city might grant some concession in water rates as pool would be a benefit to the city. Town Clerk thought that it was only fair that city should make special water rate to association, that such a move would meet with the approval of the board. President of the Association Fred D. Jordan thought they were entitled to some consideration in matter of water rates.
Matter was referred to water committee and corporation counsel for investigation and report.

CALLS REPUBLICAN PLATFORM

"A REMARKABLE FULFILLMENT"

Statement issued by Senator William J. Stone.

St. Louis, June 12.—Senator William J. Stone, who is to be chairman of the resolutions committee of the democratic convention, issued a statement today calling the republican platform drafted in Chicago "a remarkable fulfillment" with one-half the legislation it demanded already enacted and the other half now being worked out by the democratic party.

Hughes a Man of Ability.

Senator Stone said he considered Mr. Hughes a man of ability and character, but looked upon his nomination while he was on the bench as full of menace and danger.
"My objection to the nomination of Mr. Hughes," said the senator's statement, "lies in the fact that I regard it as bad in every way, even vicious, for a man of his caliber, who has been pressed and on it uppers, to invade the supreme court of the United States and take down from now bench one of the justices to make room for a party candidate for a political office to meet and serve a party exigency. The experiment is full of menace and danger. Hereafter it is more than probable that men appointed to the supreme court bench will begin to regard it not as the honorable and final goal of their ambition, but as a stepping stone to what they will as Mr. Hughes does, regard as a political maneuver around the judicial position they hold."
"In that view of things it will follow that the decisions of judges of great tribunals will become more or less the subject of suspicion. People will begin to surmise whether decisions on questions of wide or general interest have been made behind some sinister political design. The tendency will be to undermine public confidence in that great court—a thing that would be a real evil consequence if not disastrous. Some state constitutions, I am told, contain provisions which make the judges of the supreme courts ineligible to a political office during the term of which they are elected or appointed. would be wise to amend the constitution of the United States as to make a justice of the supreme court ineligible to any political office while a member of that court or for a period of five years following his retirement or separation therefrom.

Criticized Progressive Platform.

The senator criticized the progressive platform and called attention to the fact that it contains a declaration that the issue was "one of men," by which he said the progressives meant Roosevelt. Now, he said, Roosevelt sues in his tent at Oyster Bay, while his loyal following waits uncertain and dispirited.

Will he respond and lead them, singing, onward, Christian soldiers? He will shrink before the uplifted sword of the old guard and thus leave his steady and stalwart adherents, victims of one of the most pitiful and tragic betrayals ever recorded in American history?
